

Small Change

Smaller Change

On 31 July this year, our 10, 20 and 50 cent coins will be getting a makeover.

The new 10, 20 and 50 cent coins will all be smaller and lighter. The new 10 cent coin will be copper coloured. And our 5 cent coin will be removed from circulation.

The designs on the coins will not change.

If you have been hoarding silver coins, now is a good time to start thinking about getting them out of the bottom drawer and taking them to your bank.

You might be surprised how much cash you have accumulated!

Our new small change. It's a change for the better.

C H A N G E

FOR THE BETTER

31 JULY 2006
